

Bulletin No 469

Date: 26th October 2017

UPDATE ON WHEELCHAIR ACCESSIBLE TAXI DRIVER TRAINING.

Good News, the Taxi Council's Wheelchair Accessible Taxi Driver Training is up and running with drivers who have already completed the course providing positive feedback.

The Unit "TLIC2040 Provide Wheelchair Accessible Taxi Services to Passengers with Disabilities" is accredited which means drivers who successfully complete the One Day Course, assessments and the on-road session, will have that Unit of Competency included on their Education qualification, Certificate II "Driving Operations".

This training provides drivers with the skills and knowledge necessary to best meet the transport needs of the disabled community who are using Wheelchair Accessible taxis.

Existing Drivers of all general taxis, including wheelchair accessible taxis, are invited to upgrade their taxi driving skills to incorporate this new and important competency based training.

This is a compulsory pre-requisite for Wheelchair Accessible taxi driving. You will be required to complete the training and obtain a Statement of Attainment prior to applying for a Wheelchair Accessible Taxi PIN.

Please contact the Taxi Council for further details on how we can assist you with funding. Places are available on the next course so please call for more information.
