## ILLEGAL RIDESHARING

A reminder that we need your help to identify illegal ridesharing vehicles.

They are illegal if they:

- Are touting (plying for hire) in a public street
- Are sitting on a taxi rank
- Do not have the required identification (see attached DPTI Fact Sheet)
- Do not have a current Inspection Certificate on their vehicle
- The driver does not have his/her identification in a holder on the dash.

The taxi industry works within the regulations and our competitors must do the same.

If you see any rideshare vehicles acting outside of the regulations described above,

photograph the vehicle and

send it with details of location, time, date and any other remarks

to

[admin@taxicouncilsa.com.au](mailto:admin@taxicouncilsa.com.au)

### **IMPORTANT INFORMATION - TO ENABLE SUCCESSFUL PROSECUTION**

When photographing a rideshare vehicle on a taxi rank, please ensure you get the taxi rank sign in the same picture.
